

4 things to keep in mind when hiring a DJ for your School Dance.

1. Do they have a website or blog? They should. It is a red flag if they don't.
2. Do they have pictures of past events? Any company that has done dances before should have pictures of past events.
3. Check Facebook, LinkedIn, Twitter and other social media sites. Find out what other people are saying about them.
4. What does this DJ Company specialize in? You can usually tell from the pictures on their website. Do you really want to hire a wedding DJ to provide music at your School Dance?

#### Caution

- Large companies - The person you contact turns out NOT to be the person that actually does your show. Find out the name of the DJ that is going to work at your Event.
- Large companies – Most companies have great DJs. Some of these DJs have done tons of events. But some might have just started last week. Find out the history of the DJ that will perform at your event.
